

**Debazit Datta**

is awarded this **Machine Learning Researcher** certificate in recognition of their skills.

Workera evaluates skills used by machine learning engineers, data scientists, and software engineers in their work. It is designed to assess a candidate's ability to perform tasks such as data engineering, modeling, deployment, business analysis, and AI infrastructure rather than test for knowledge.

For more information about the test, please refer to [www.workera.ai](http://www.workera.ai).

**Verified Certificate ID: TXT526JV**

*\*Percentiles are used to compare all candidates who have completed Workera tests.*

TEST PERFORMANCE			
Section	Ability	Proficiency	Percentile Rank*
Algorithmic Coding	61	Accomplished	66%
Mathematics	73	Accomplished	82%
Data Science	70	Accomplished	87%
Machine Learning	62	Accomplished	80%
Deep Learning	64	Accomplished	82%
Software Engineering	60	Accomplished	72%
AI Literacy	67	Accomplished	42%

What kind of AI professional are you? Take our [skills-based test](#) to find out.
