

Debazit Datta

is awarded this **Machine Learning Engineer** certificate in recognition of their skills.

Workera evaluates skills used by machine learning engineers, data scientists, and software engineers in their work. It is designed to assess a candidate's ability to perform tasks such as data engineering, modeling, deployment, business analysis, and AI infrastructure rather than test for knowledge.

For more information about the test, please refer to www.workera.ai.

Verified Certificate ID: T5FCTYL7

*Percentiles are used to compare all candidates who have completed Workera tests.

TEST PERFORMANCE			
Section	Ability	Proficiency	Percentile Rank*
Algorithmic Coding	61	Accomplished	66%
Mathematics	73	Accomplished	82%
Data Science	70	Accomplished	87%
Machine Learning	62	Accomplished	80%
Deep Learning	64	Accomplished	82%
Software Engineering	60	Accomplished	72%
AI Literacy	67	Accomplished	42%
